Languages	Perl, Python, Javascript, HTML, CSS
Frameworks	React.js, Ember.js, Django
Other Technologies	MySQL, MongoDB, Apache, Linux, Git, Heroku, Postgres,

EXPERIENCE

UNC Coding Boot Camp — Teaching Assistant

March 2017 - PRESENT

Teaching Assistant for a six month long coding boot camp taught through the Friday Center at UNC. Students focus on the MERN stack and curriculum includes HTML/CSS, jQuery, Javascript, Node, Express, React and MongoDB. My role includes grading homework, helping the instructor with class activities, and being available as as mentor both during class and office hours.

AT&T — Web Application Developer

February 2016 - March 2017

Worked on internal tools for AT&T. Technologies used included Perl, Javascript, jQuery, HTML/CSS, MySQL, Apache, Git, and Ember.js. Hired as a junior developer and later promoted to mid level developer.

EDUCATION

The Iron Yard — Data Science with Python

August 2015 - November 2015

Attended a three month intensive code school where I learned the basics of web development and data science. Technologies used included Python, Javascript, HTML/CSS, Django, Postgres, Heroku and Git.

UNC Chapel Hill — B.A. Biology

August 2010 - August 2015

Graduated with a well rounded degree in Biology. I focused particularly on Ecology and Botany.
